Association for Digital Education and Communications Technology (Nigeria) and Association for Education and Communication Technology (USA)

International Conference

Theme: The Innovative Educator – Bridging Digital, Technological and Education Divides in a Borderless World

PREAMBLE

As the world become more digital, there is an increasing need for the application and deployment of ICT tools in every area of human endeavour. ICT and other emerging technologies are increasingly being used to create new services and improve solutions in all sectors. Education as an important sector of the society requires accelerated adoption and implementation of ICT to further quest achieve high quality and value driven education services.

The Association for Digital Education and Communication Technology (ADECT) is the Nigerian Arm of an international organization that promotes the application of Information and Communication Technology in Education, Instructional Design and the development of a systematic approach to learning. The organisation also advocates for the improvement of instructional delivery systems and educational technology. The parent organization of ADECT- Nigeria is Association for Education and Communications Technology (AECT) located in Bloomington, Indiana, USA. Members of ADECT -AECT Nigeria are drawn from teaching and research staff of Tertiary Institutions in Nigeria, education service providers and the public and private sector.

The conference will provide opportunities to share important ideas and experiences, showcase initiatives, examine vital issues and proffer solutions that are actionable and sustainable for the development of education.
